Merry Christmas and A Happy New Year

Community Times Stretford

The first Halloween party organised by the Friends of Victoria Park, Stretford and funded by Trafford Small

Grants was held

on Sat 31st Oct and was an amazing success. With lantern making and other Halloween crafts such as balloon ghost making, pasta skeleton construction and colouring spooky pictures. Shelly Quinton-Hulme, Chairperson for the Friends group said 'there were over 230 children who took part in this of our event which was fantastic - everyone seemed to be having a great time and some of the creations were magnificent. The lanterns were then to be used in the lantern parade around the park that evening so the children really made an effort - they were great, even when they may have had to queue for a while

to get into the tent to start.' We were totally overwhelmed by the response to this event. We had planned for approx 200 guests but we reckon 500 plus people arrived. It was amazing to see so many of the local community here supporting us and having a great time, and the lantern parade looked beautiful around the park

The Friends next event is a Christmas event on Sat Dec 5th from 12pm-3pm, where they will also be celebrating and officially unveiling their new mosaic the 'Welcoming Wall' which was funded by a Grassroots grant. For any more information please get in touch with Shelly Quinton-Hulme via email: park-friends@hotmail.com and for information on the group please see their website www.fovps.org.uk.
