

The big bulb plant

The local community came together with the Friends of Victoria Park at the end of September for the 2008 Great Bulb Planting event.

Over 60 people, including many families with small children, the 3rd Trafford Boys Brigade and Councillor Tom Ross and Steve Adshead, Mayor of Trafford, came to join in and lend a hand.

An amazing 3,655 bulbs, including bluebells, snowdrops, iris's, tulips, crocus's and narcissus's to name a few, were planted in the Garden of Tranquillity, the Rose Gardens and the over 5's playground. These will undoubtedly brighten up what can be a bare and dismal part of the park in the winter and spring.

Shelly Quinton-Hulme, Chairperson for FOVP's said: "It was a fabulous turn-out, the weather was beautiful, the kids were brilliant and it was great to see the adults passing on their bulb planting skills to their children"
