

Success for parks in Green Flag Awards

The six Trafford parks and green spaces entered for Green Flag Awards have all been successful, highlighting once again the hard work that the council, friends groups and other partners are carrying out to create a cleaner, greener borough.

Walkden Gardens, Worthington Park, Trafford Ecology Park, Hullard Park, Victoria Park and Denzell House gardens all received the national award.

Executive Councillor Jonathan Coupe said: "This is the culmination of much hard work from the council and partners, friends groups and other volunteers to maintain and improve our green spaces so that they can continue to be enjoyed by local people and visitors to Trafford."

"This once again highlights our continued commitment to making Trafford a cleaner, greener borough to live, learn, work and relax in."

Paul Todd, Green Flag Award scheme application manager, said: "Congratulations to all the management, staff, and in particular, the volunteers whose hard work and dedication has brought this award of excellence."
