Please feel free to contribute to our magazine send us your stories, recipes, poems and details of any events that you have on.

In this publication you may find the odd!!!! Spelling misstroke, typing error or where you find the grammar is not quite as it should be. That is due to a condition I have called dyspraxia similar to dyslexia, people with this tend to spell phonetically and sometimes I miss the last letters of words due sometimes to the speed my brain (yes I do have one) is working basically it means "I am playing all the right notes but not necessarily in the right order" to quote Eric Morecambe. If my malapropisms amuse you that's fine by me we all need a laugh. The word comes from Mrs Malaprop a character in Sheridan's play The Rivals who misuses words in this way.
