

Thursday 16th October 7pm—Victoria Court, School Road, Stretford

Why should I attend?

A meeting has been organised for residents of Victoria Park to talk about setting a Residents Group to begin working together on some of issues in the area. These include anti social behaviour; litter, parking, vandalism - amongst others!

If you want to get involved, want to meet people who live in your neighbourhood, find out what is happening, come along and have a brew with us!

The meeting will be run by residents of Victoria Park so they will have a good understanding of your issues.

What difference could a group make to the area?

Forming a group who campaign collectively for issues really makes a difference to bringing about change. It is know that representatives from the Council, local councillors and the police respond more effectively to established group as it shows there is strong opinion.

To confirm your attendance or would like more information please ring
